THE OSH EAST NET PROJECT

The project aims to

- improve knowledge and awareness on OHS;
- share knowledge and good practice between AIDII and other existing or perspective Association of Industrial Hygienists;
- enhance harmonization with EU standards

The Target Groups addressed are

- Scientific and professional Associations
- National and local policy makers
- Employers' organisations and trade unions
- No-profit associations, agencies,
- Non Governmental Organisations committed to OSH
- Private consultants and employees of industries, researchers and inspectors.
- Local Communities: public institutions/organizations.

THE OSH EAST NET PROJECT

Expected Results

- A regional network for H&S protection and a dedicated website as main tool for sharing information
- Four thematic workshops for exchanging experiences and knowledge among partners (using EASW methodology)
- Four technical seminars (1 for each involved Country) to analyse the state of art related to the associations/networks, OHS legislations
- New Association (or their local Incubators) of Industrial Hygienists in Serbia, Albania and Macedonia
- Twinning Agreement between partners
- Participation of partner associations at the International Occupational Hygiene Association (IOHA) as members
- Presentation of OSH EAST NET activities and main outcomes during the international IOHA conference in September 2010
- One international event to promote project
- Website and printed material

OSHEASTNET II

In order to consolidate and improve the network between European and Western Balkans Associations/Organisations we presented a new project: OSHEASTNET II.

In the new project there will be involved new partners:

- ENSHPO- European Network of Safety and Health Professional Organisations
- Montenegrinan Confederation of Employers
- Partnership for Public health - Bosnia Herzegovina

***Thank you very much
for your attention.***

***BEST WISHES BY
THE OSH EAST NET STAFF !***
